**Economy Profile of Paraguay**

*Doing Business 2020 Indicators  
(in order of appearance in the document)*

<b>Starting a business</b>	Procedures, time, cost and paid-in minimum capital to start a limited liability company
<b>Dealing with construction permits</b>	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
<b>Getting electricity</b>	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
<b>Registering property</b>	Procedures, time and cost to transfer a property and the quality of the land administration system
<b>Getting credit</b>	Movable collateral laws and credit information systems
<b>Protecting minority investors</b>	Minority shareholders' rights in related-party transactions and in corporate governance
<b>Paying taxes</b>	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as postfiling processes
<b>Trading across borders</b>	Time and cost to export the product of comparative advantage and import auto parts
<b>Enforcing contracts</b>	Time and cost to resolve a commercial dispute and the quality of judicial processes
<b>Resolving insolvency</b>	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
<b>Employing workers</b>	Flexibility in employment regulation and redundancy cost

## About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

*Doing Business* captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of employing workers. Although *Doing Business* does not present rankings of economies on the employing workers indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

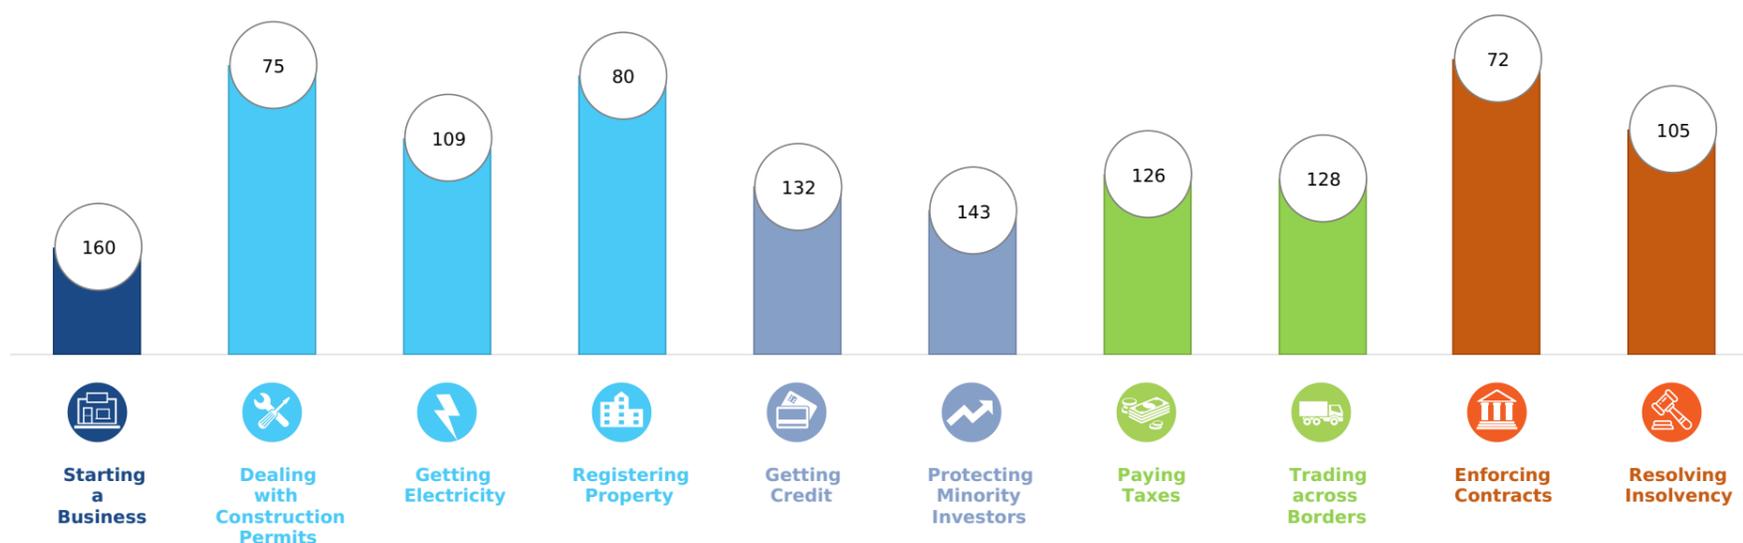

In addition, *Doing Business* offers detailed [subnational studies](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These studies provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* study, published in 2003, covered 5 indicator sets and 133 economies. This year's study covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Cost (% of estate)	9.0
Outcome (0 as piecemeal sale and 1 as going concern)	0
Strength of insolvency framework index (0-16)	9.5

## Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally start and formally operate a company (number)</b></p> <ul style="list-style-type: none"> <li>• Preregistration (for example, name verification or reservation, notarization)</li> <li>• Registration in the economy's largest business city</li> <li>• Postregistration (for example, social security registration, company seal)</li> <li>• Obtaining approval from spouse to start a business or to leave the home to register the company</li> <li>• Obtaining any gender specific document for company registration and operation or national identification card</li> </ul>	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p>
<p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day (2 procedures cannot start on the same day)</li> <li>• Procedures fully completed online are recorded as ½ day</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul>	<p><b>The business:</b></p> <ul style="list-style-type: none"> <li>-Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the limited liability form most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office.</li> <li>-Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>-Performs general industrial or commercial activities such as the production or sale to the public of goods or services. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It is not using heavily polluting production processes.</li> <li>-Does not qualify for investment incentives or any special benefits.</li> <li>-Is 100% domestically owned.</li> <li>-Has five business owners, none of whom is a legal entity. One business owner holds 30% of the company shares, two owners have 20% of shares each, and two owners have 15% of shares each.</li> <li>-Is managed by one local director.</li> <li>-Has between 10 and 50 employees one month after the commencement of operations, all of them domestic nationals.</li> <li>-Has start-up capital of 10 times income per capita.</li> <li>-Has an estimated turnover of at least 100 times income per capita.</li> <li>-Leases the commercial plant or offices and is not a proprietor of real estate.</li> <li>-Has an annual lease for the office space equivalent to one income per capita.</li> <li>-Is in an office space of approximately 929 square meters (10,000 square feet).</li> <li>-Has a company deed that is 10 pages long.</li> </ul>
<p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> <li>• No professional fees unless services required by law or commonly used in practice</li> </ul>	<p><b>The owners:</b></p> <ul style="list-style-type: none"> <li>-Have reached the legal age of majority and are capable of making decisions as an adult. If there is no legal age of majority, they are assumed to be 30 years old.</li> <li>-Are in good health and have no criminal record.</li> <li>-Are married, the marriage is monogamous and registered with the authorities.</li> <li>-Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.</li> </ul>
<p><b>Paid-in minimum capital (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Funds deposited in a bank or with third party before registration or up to 3 months after incorporation</li> </ul>

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

## Details - Starting a Business in Paraguay - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Check the availability of the proposed company name</b>  <i>Agency: Treasury Attorney Office</i>            Business entrepreneurs must verify the availability of the proposed company name. Despite there is available an online database, entrepreneurs usually check the availability at the Treasury Attorney Office.</p>	1 day	no charge
2	<p><b>Draft the company deeds, signed by an attorney</b>  <i>Agency: Attorney</i>            Because company formation documents must comply with corporate laws and regulations, companies customarily resort to legal professionals. Registration and filing of applications (e.g., bylaws to the Treasury Attorney Office, to the court, to the registries) must be signed by an attorney either as the founders' agent or counsel.</p> <p>The organization of companies by attorneys acting through powers of attorney is also a common practice. The fee for this formality is about 1% to 3% of the company's paid-in capital stock. Article 72 (1) of Law No. 1376/88 establishes the official legal fee for this task.</p>	5 days	1 - 3% of the paid-in capital stock of the company
3	<p><b>Notarize the company deeds</b>  <i>Agency: Notary Public</i>            Company deeds must be notarized. The public notary's fee for notarizing company deeds is established in the Notary's Fees Law. A licensed attorney usually drafts the bylaws but a licensed public notary notarizes the deed (the public deed is to be included in the notary's protocol and registered at the public registries). Attorneys are not legally authorized to notarize or certify documents.</p>	3 days	0.75% or 2% of the paid-in capital stock of the company, depending on the capital
4	<p><b>Obtain the judicial authorization for the company digital books</b>  <i>Agency: Commercial Registry (Registro Público de Comercio)</i>            The article 78 of Commercial Law requires that certification of the company's books the Judicial Authority. Since June 2017, it is possible to use digital books for keeping the accounting records.</p> <p>In order to obtain the judicial authorization, the company must file at the Commercial Registry the following documents:</p> <ul style="list-style-type: none"> <li>i) Application Form No.18;</li> <li>ii) notification of the accounting system to be used (books or digital records);</li> <li>iii) copy of the legal representative ID;</li> <li>iv) copy of the certificate of incorporation and RUC;</li> <li>v) and payment receipt.</li> </ul> <p>The judicial authority will issue the authorization within the following 45 days, but meanwhile the company can start formally to operate. If the company will opt for the digital accounting record, it will receive a confirmation email with a digital signature ("sello digital"). The digital signature must be stamped in all loose pages of the accounting records.</p> <p>The company can also keep using the traditional books. They must be submitted to the Commercial Registry to have all the pages sealed. On the first page, a seal indicates how many sealed pages the book contains and that it was registered, specifying the court order number, the date, and the name of the judge who rendered the order.</p> <p>The company must keep special commercial books at their registered office. The number of books and the accounting system to be used are left to the merchant's discretion. At a minimum, however, a daily record of business transactions (daily record book) must be kept, and an accounting of current inventory must also be maintained in a separate book (inventory record book). Other books may be required for certain types of commercial activities according to law.</p> <p>Accounting books and documentation must be kept by a merchant for 5 years following the date that the last entry was made. All corresponding business receipts or vouchers must also be kept and maintained by the merchant during that 5-year time frame, to allow for auditing of the company's books or records. Corporate books are required to keep the records of the minutes of the board of directors and shareholders' meetings, as well as the labor books pursuant to the Labor Code and regulations. Books must also be authorized and sealed by each corresponding agency (corporate, tax, labor, social security).</p>	1 day	GRN 28.062 (Judicial authorization of books) + GRN 35.078 per digital record book

5	<p><b>Register the company at the Single Window (SUACE)</b>  <i>Agency</i> : Single Window (Sistema Unificado de Apertura y Cierre de Empresas - SUACE)  Companies can be registered at each government agency or at SUACE (Sistema Unificado de Apertura y Cierre de Empresas), the one-stop shop to register a company established in December 2006 by the Ministry of Industry and Commerce. Through SUACE, founders are able to comply with the following procedures to register a company with the relevant authorities:</p> <ul style="list-style-type: none"> <li>- Submit all documentation at the Single Window at SUACE for revision and approval. Once approved, the documents are scanned, and the information is uploaded to a single application form (formulario único). SUACE assigns an identification number that allows the founder to monitor the registration process through the Web site.</li> <li>- The bylaws and other company formation documents are submitted to the Treasury Attorney Office (Abogacía del Tesoro) which reviews them and issues a registration and publication order.</li> <li>- An application for tax registration is submitted to a delegate of the Ministry of Finance (Ministerio de Hacienda).</li> <li>- An application for the taxpayer's registry number (Registro Único de Contribuyentes, RUC) is submitted.</li> <li>- An application for the relevant Municipal licenses and permits (Patente de Comercio, Resolución y Certificado de Licencia de Habilitación de Establecimiento) is submitted to the Municipality of Asunción for fee verification and assessment. The Municipality issues the licenses upon inspecting the site and approving the documentation.</li> <li>- An application for registration with Social Security Institute (Instituto de Previsión Social) is submitted.</li> <li>- An application for registration with the Ministry of Justice and Labor (Ministerio de Justicia y Trabajo) to start hiring employees is submitted.</li> </ul> <p>The fees are as follows: GRN 39,253 (Commercial Registry fee) + GRN 39,253 (Public Registries of Legal Entities and Associations) + GRN 62,804 (Special Tax).  The fees for the business license are: 2 stamps of GRN 1000, 1 stamp of GRN300 and 1 sealed paper of GRN 300.</p>	25 days	see procedure details
⇒ 6	<p><b>Publication of an extract of the bylaws in the Official Gazette and a newspaper</b>  <i>Agency</i> : Official Gazette  The treasury attorney orders the publication of an extract of the bylaws in the Official Gazette and another newspaper of wide circulation in the market in which the company is located. The extract is published for 3 consecutive business days.</p>	4 days (simultaneous with previous procedure)	USD 19 Official Gazette + USD 133 newspaper
⇒ 7	<p><b>Receive a site inspection from the Municipality to obtain a Business License</b>  <i>Agency</i> : Municipality  Before conferring the business license, municipal inspectors perform an onsite inspection of the company's main office to verify compliance with municipal ordinances.</p> <p>The fees for obtaining the municipal license are the following:</p> <ul style="list-style-type: none"> <li>i) administrative fees for issuing the license: 12 stamps of GRN 300, 4 stamps of GRN 1,000;</li> <li>ii) report of the company land use: GRN 115,000;</li> <li>iii) payment for the business license ('patente comercial') for a company with assets between GRN 100,000,001 and GRN 300,000,000: the fee is GRN 273,700 plus 0.2% of the exceed to the inferior limit;</li> <li>iv) payment of the municipal license ('licencia municipal') for a company with more than 350 square meters: 0.077604 of the minimum daily salary for each additional square meter from 350;</li> <li>v) transfer fee for the inspection: 0.099778 of the minimum daily salary.</li> </ul>	2 days (simultaneous with procedure 5)	see procedure details

⇒ Takes place simultaneously with previous procedure.

## Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2019. [See the methodology for more information](#)

### What the indicators measure

#### Procedures to legally build a warehouse (number)

- Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates
- Submitting all required notifications and receiving all necessary inspections
- Obtaining utility connections for water and sewerage
- Registering and selling the warehouse after its completion

#### Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

#### Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes

#### Building quality control index (0-15)

- Quality of building regulations (0-2)
- Quality control before construction (0-1)
- Quality control during construction (0-3)
- Quality control after construction (0-3)
- Liability and insurance regimes (0-2)
- Professional certifications (0-4)

### Case study assumptions

To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.

#### The construction company (BuildCo):

- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.
- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.

#### The warehouse:

- Will be used for general storage activities, such as storage of books or stationery.
- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.
- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.
- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).

#### The water and sewerage connections:

- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.
- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.
- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

## Details - Dealing with Construction Permits in Paraguay - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Obtain results of geotechnical study / soil test</b>  <i>Agency:</i> Private licensed company            BuildCo will request a soil test for the structural calculations for the foundation. Contractors ask for a soil test to ensure that the foundation of the building is solid. The engineer must understand the suitability of the soil for the proposed construction work. It allows to build a solid foundation and avoid structures to be damaged or collapsed or leaned. This procedure is required by Ordenanza Municipal N. 26.04/90.</p>	10 days	USD 1,175
⇒ 2	<p><b>Request and obtain a no-objection certificate (certificado de no interdicción) duly notarized by a public notary</b>  <i>Agency:</i> General Department of Public Registries (Dirección General de los Registros Públicos)            The no-objection certificate ("certificado de no interdicción") is a statement issued by public registries certifying that an individual (or legal entity) does not have any legal prohibition or restriction to sell or encumber a property. It is mandatory for all types of construction projects.</p>	10 days	PYG 162,504
⇒ 3	<p><b>Obtain results of topographical study</b>  <i>Agency:</i> Private licensed company            A topographical study is conducted prior to construction to measure the levels on the specific terrain. It is a general technical requirement when building a structure of this class. The results of a topographical study must be presented to the Municipality before obtaining the building permit.</p>	7 days	USD 725
4	<p><b>Request and obtain calculation basis form and affidavit</b>  <i>Agency:</i> Municipality            After the certificate of no-objection is issued, BuildCo. can request and obtain calculation basis form and affidavit.</p>	1 day	no charge
5	<p><b>Hold a pre-approval consultation with the Municipality about the project</b>  <i>Agency:</i> Municipality            It is common practice in Asuncion to consult with the relevant department at the Municipality over the project drawings and designs before submitting the documents.</p>	1 day	PYG 611,000
6	<p><b>Request and obtain building permit</b>  <i>Agency:</i> Municipality            The application must be accompanied by the following documents:</p> <ul style="list-style-type: none"> <li>• The property title</li> <li>• The identity card of the landowner</li> <li>• Proof of payment of municipal taxes (sewage service and garbage collection)</li> <li>• The builder's identity card and a valid municipal registration or license</li> <li>• Three sets of plan copies signed by the responsible builder and the owner of the land</li> <li>• A structural calculation of the concrete structure signed by an engineer and the owner of the land</li> <li>• The construction work budget signed by the owner and the responsible builder</li> <li>• Fire prevention maps, if required</li> </ul> <p>The legal time limit is 30 days.</p>	21 days	PYG 4,536,513
7	<p><b>Receive inspection by the Municipality</b>  <i>Agency:</i> Municipality            According to Municipal Regulation No. 26104/90 (Ordenanza Municipal 26104/90):</p> <ul style="list-style-type: none"> <li>• All inspections must be carried out within 2 to 5 business days, excluding the day of the request. The final inspection should be undertaken in a time frame that varies from 15 to 20 days (Article 46).</li> <li>• If inspections are not carried out within the stated time frames, the applicant is entitled to file a claim before the relevant municipality. The municipality must then take the necessary steps so that the inspection is completed within 48 hours (Article 47).</li> </ul> <p>The site is inspected when the building permit application is filed. In practice, however, there is not much follow-up, and a maximum of two inspections are done throughout the process (the initial and final inspections).</p>	1 day	no charge

8	<b>Request final project approval and final inspection</b> <i>Agency</i> : Municipality The final approval includes the architecture, structure and fire prevention, and use restriction. The municipal inspector checks the site, after which a final inspection certificate is granted. A final certificate of inspection is produced and signed by the Director of Works at the Municipality	1 day	no charge
9	<b>Receive final inspection by municipal authorities</b> <i>Agency</i> : Municipality Once the final approval is issued, BuildCo. can receive the final inspection by municipal authorities.	1 day	no charge
10	<b>Obtain final approval (certificado de terminación de trabajos) by municipal authorities</b> <i>Agency</i> : Municipality Upon the final inspection request, BuildCo. receives the final approval certificate.	79 days	no charge
⇒ 11	<b>Request and connect to sewage service</b> <i>Agency</i> : Essap S.A Assuming a 0.75 inch water/sewage meter and a PVC pipeline on an asphalt-paved street, the cost is 40% of the minimum wage + PYG 100,800.00 per ml of branch sewer (average 8 ml).	15 days	PYG 1,195,200
⇒ 12	<b>Request and connect to potable water service</b> <i>Agency</i> : Water Company In parallel with the sewage service, BuildCo. can also request the connection of water services.	15 days	PYG 528,000
13	<b>Register the building with the Treasury Department (Cadastral Office)</b> <i>Agency</i> : Ministerio de Hacienda (Departamento de Catastro) Once the water connection is done, BuildCo is ready to register the warehouse at the Treasury	4 days	PYG 40,000
14	<b>Request and obtain authenticated photocopy of the registration notarized by a public notary</b> <i>Agency</i> : Escribano Público (Public Notary) Registration of the warehouse will facilitate its sale and increase its value. This is a commonly practiced procedure.	1 day	PYG 81,252

⇒ Takes place simultaneously with previous procedure.

## Details - Dealing with Construction Permits in Paraguay - Measure of Quality

	Answer	Score
<b>Building quality control index (0-15)</b>		<b>8.0</b>
<b>Quality of building regulations index (0-2)</b>		<b>1.0</b>
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents.	0.0
<b>Quality control before construction index (0-1)</b>		<b>1.0</b>
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed architect; Licensed engineer.	1.0
<b>Quality control during construction index (0-3)</b>		<b>0.0</b>
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Unscheduled inspections.	0.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are not always done in practice during construction.	0.0
<b>Quality control after construction index (0-3)</b>		<b>3.0</b>
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, final inspection is done by government agency.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection always occurs in practice.	1.0
<b>Liability and insurance regimes index (0-2)</b>		<b>1.0</b>
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer; Professional in charge of the supervision; Construction company; Owner or investor.	1.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	.	0.0
<b>Professional certifications index (0-4)</b>		<b>2.0</b>
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	University degree in architecture or engineering; Being a registered architect or engineer.	1.0
What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)	University degree in engineering, construction or construction management; Being a registered architect or engineer.	1.0

## ⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Procedures to obtain an electricity connection (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

#### Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

#### Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

#### The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0-3)
- Tools to monitor power outages (0-1)
- Tools to restore power supply (0-1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0-1)
- Transparency and accessibility of tariffs (0-1)

#### Price of electricity (cents per kilowatt-hour)\*

- Price based on monthly bill for commercial warehouse in case study

\*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor in the ranking on the ease of getting electricity.

### Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

#### The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time.
- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

#### The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).
- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.
- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

#### The monthly consumption:

- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.
- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

Getting Electricity - Paraguay

Standardized Connection

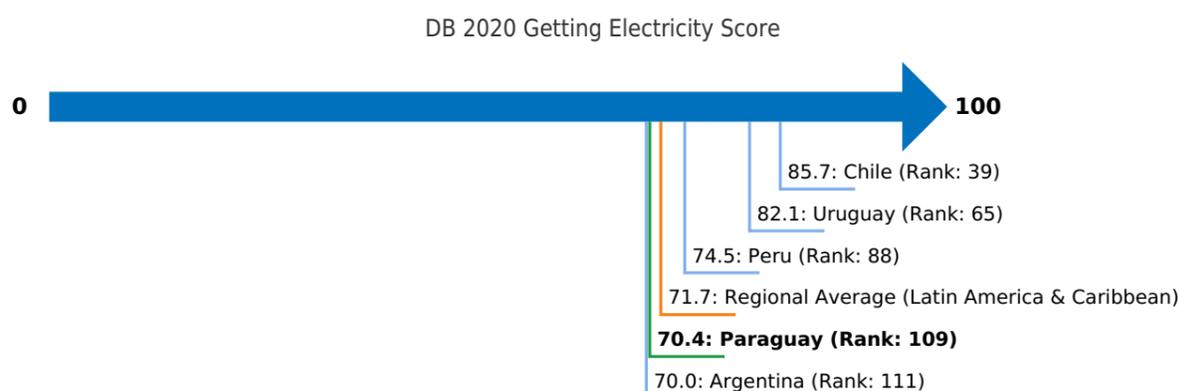

Name of utility	Administracion Nacional de Electricidad (ANDE)
Price of electricity (US cents per kWh)	6.6
City Covered	Asuncion

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Procedures (number)	5	5.5	4.4	3 (28 Economies)
Time (days)	67	66.8	74.8	18 (3 Economies)
Cost (% of income per capita)	113.4	407.2	61.0	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	3	4.4	7.4	8 (26 Economies)

Figure - Getting Electricity in Paraguay - Score

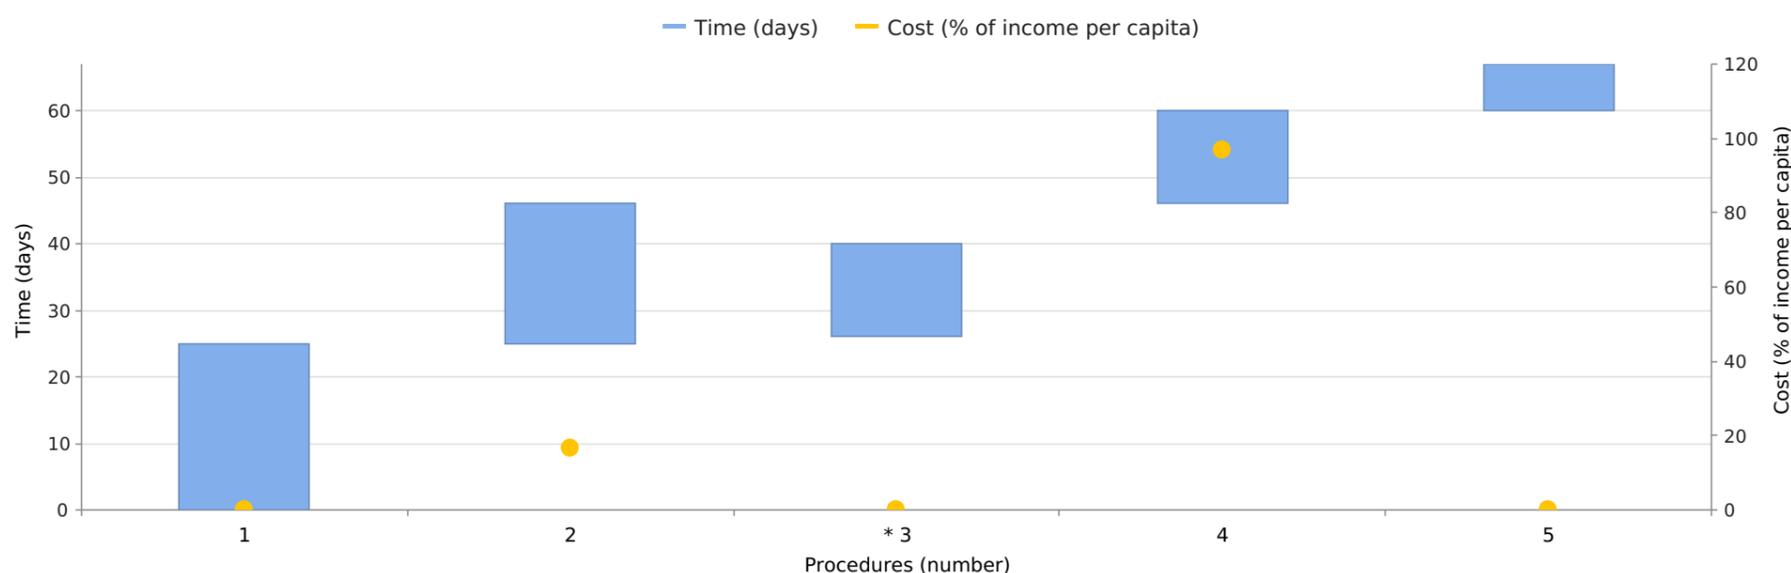

Figure - Getting Electricity in Paraguay and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

Figure - Getting Electricity in Paraguay - Procedure, Time and Cost

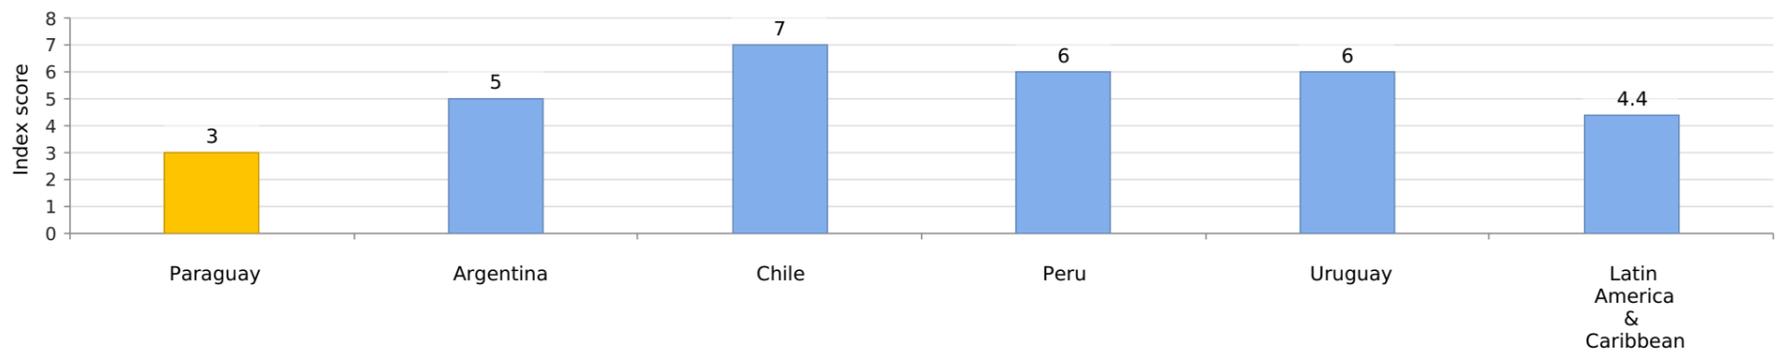

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures

reflected here, see the summary below.

**Figure - Getting Electricity in Paraguay and comparator economies - Measure of Quality**

## Details - Getting Electricity in Paraguay - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Request feasibility study by ANDE</b>  <i>Agency: Administracion Nacional de Electricidad (ANDE)</i>            The electrician of the customer first submits a request for a feasibility study with ANDE and awaits the preparation of an estimate. No site inspection is necessary to prepare the feasibility study. The electrician has to be registered with ANDE. For connections of electricity loads &gt; 100kVA ANDE requires that the electrician has to be of a qualification level A or B. 5 different levels exist and A and B are the highest qualification levels. Level A electricians are electrical engineers with a university education (ingenieros electricistas). Level B are civil engineer with a university education (ingenieros civiles) but also some electricians with technical educations but a lot of practical experience with more sizeable connection works.</p>	25 calendar days	PYG 0
2	<p><b>Submit official service application to ANDE</b>  <i>Agency: Administracion Nacional de Electricidad (ANDE)</i>            Once the feasibility of the project has been established, the electrician submits the official application which has to include the following documents:</p> <ul style="list-style-type: none"> <li>• Application for service signed by the responsible electrician</li> <li>• Photocopy of the property title (only document that requires notarization)</li> <li>• Photocopy of the national identification form of the owner of the property.</li> <li>• Photocopy of the carnet of the responsible electrician.</li> <li>• Receipt of the payment for the connection.</li> <li>• Sketch of the location of the property.</li> <li>• Signature of the owner or his authorized person for the contract.</li> <li>• Receipt of the transformer purchase.</li> <li>• Certification of the successful testing of the transformer.</li> <li>• Certificate specifying the transfer of property of the transformer.</li> <li>• The results of the feasibility study</li> <li>• Security Deposit in the amount of one month of future consumption. The deposit is returned without interest at the end of the contract.</li> </ul> <p>The supply contract is signed at the same time as the application is submitted. A work order is issued and the customer awaits the connection works. An internal wiring inspection is not necessary. The utility ensures that the internal wiring of the customer is in order by requesting the responsible electrician to sign the application for the connection.</p>	21 calendar days	PYG 5,419,550.54
⇒ 3	<p><b>Receive site inspection by ANDE</b>  <i>Agency: Administracion Nacional de Electricidad (ANDE)</i>            ANDE does an inspection of the client's warehouse to determine how the connection to the electricity network has to be done.</p>	14 calendar days	PYG 0
4	<p><b>Purchase and install material for connection works</b>  <i>Agency: Private firm</i>            The electrician buys the transformer and installs it. A direct connection to the low voltage grid is not possible because the load of 140kVA exceeds the allowed limit of 100kW. ANDE will prefer the installation of a dedicated transformer because the demand will represent the highest demand in the area and therefore determine the infrastructure needed. The customer pays for the transformer but will be reimbursed by ANDE for a total of 50% of the cost via his monthly consumption bill. The ownership of the transformer is transferred to ANDE.</p> <p>Actual installation works are not more than one day. The transformer can be bought from specialized local dealers. They usually have them on stock.</p>	14 calendar days	USD 5,500
5	<p><b>Receive transformer inspection, connection works and meter installation by ANDE</b>  <i>Agency: Administracion Nacional de Electricidad (ANDE)</i>            The transformer and meter are installed in the same step and the electricity usually starts flowing right away. There is no connection fee as such.</p>	7 calendar days	PYG 0

⇒ Takes place simultaneously with previous procedure.

## Details - Getting Electricity in Paraguay - Measure of Quality

	Answer
<b>Reliability of supply and transparency of tariff index (0-8)</b>	3
<b>Total duration and frequency of outages per customer a year (0-3)</b>	0
System average interruption duration index (SAIDI)	21.9
System average interruption frequency index (SAIFI)	22.8
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	3.0
<b>Mechanisms for monitoring outages (0-1)</b>	1
Does the distribution utility use automated tools to monitor outages?	Yes
<b>Mechanisms for restoring service (0-1)</b>	1
Does the distribution utility use automated tools to restore service?	Yes
<b>Regulatory monitoring (0-1)</b>	0
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	No
<b>Financial deterrents aimed at limiting outages (0-1)</b>	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
<b>Communication of tariffs and tariff changes (0-1)</b>	1
Are effective tariffs available online?	Yes
Link to the website, if available online	<a href="http://www.ande.gov.py/docs/tarifas/PLIEGO21.pdf">http://www.ande.gov.py/docs/tarifas/PLIEGO21.pdf</a>
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

**Note:**

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

## Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Procedures to legally transfer title on immovable property (number)

- Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)
- Registration procedures in the economy's largest business city.
- Postregistration procedures (for example, filling title with municipality)

#### Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

#### Cost required to complete each procedure (% of property value)

- Official costs only (such as administrative fees, duties and taxes).
- Value Added Tax, Capital Gains Tax and illicit payments are excluded

#### Quality of land administration index (0-30)

- Reliability of infrastructure index (0-8)
- Transparency of information index (0-6)
- Geographic coverage index (0-8)
- Land dispute resolution index (0-8)
- Equal access to property rights index (-2-0)

### Case study assumptions

To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.

#### The parties (buyer and seller):

- Are limited liability companies (or the legal equivalent).
- Are located in the periurban (that is, on the outskirts of the city but still within its official limits) area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Are 100% domestically and privately owned.
- Perform general commercial activities.

#### The property (fully owned by the seller):

- Has a value of 50 times income per capita, which equals the sale price.
- Is fully owned by the seller.
- Has no mortgages attached and has been under the same ownership for the past 10 years.
- Is registered in the land registry or cadastre, or both, and is free of title disputes.
- Is located in a periurban commercial zone (that is, on the outskirts of the city but still within its official limits), and no rezoning is required.
- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.
- Will not be subject to renovations or additional construction following the purchase.
- Has no trees, natural water sources, natural reserves or historical monuments of any kind.
- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.
- Has no occupants, and no other party holds a legal interest in it.

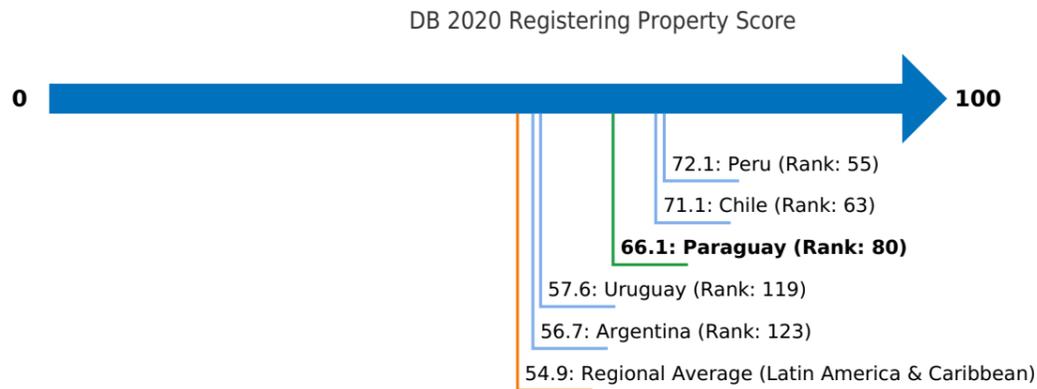

Registering Property - Paraguay

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Procedures (number)	6	7.4	4.7	1 (5 Economies)
Time (days)	46	63.7	23.6	1 (2 Economies)
Cost (% of property value)	1.8	5.9	4.2	0.0 (Saudi Arabia)
Quality of the land administration index (0-30)	12.0	12.0	23.2	None in 2018/19

Details - Registering Property in Paraguay - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Obtain tax clearance from the Municipality</b>  <i>Agency: Municipality</i>                      The notary obtains a tax clearance certificate regarding the payment of Property Taxes and Special Urban Taxes at the Municipality.</p>	20 days	PYG 162,504; (2 "jornales". The value of each jornal is Gs 81.252.)
⇒ 2	<p><b>Obtain a non-encumbrance certificate ("Certificado de libre gravamen o condiciones de dominio") and a Certificate on Free Disposability of Assets ("Certificado de anotaciones personales")</b>  <i>Agency: Public Registry (Direccion General de los Registros Publicos)</i>                      The notary obtains a certificate of Non-encumbrance and a certificate stating that the selling company has no inhibitions to sell the property (Certificate on Free Disposability of Assets) at the General Direction of Public Registries.</p> <p>According to law 879/1981, it is mandatory for notaries to obtain a Non-encumbrance Certificate. The users can download the forms for free on the website of the Judiciary <a href="http://ingresosjudiciales.csj.gov.py/LiquidacionesWeb/formulariosParticulares.seam">http://ingresosjudiciales.csj.gov.py/LiquidacionesWeb/formulariosParticulares.seam</a>. The payment of the certificate can be made online from the Judicial Branch's website through Web Banking. The non-encumbrance certificate is issued within 10 days.</p> <p>Since the entry into force of law N° 886/14 of July 29, 2014, the notaries also have the option to request online the certificate on Free Disposability of Assets through the official website of the General Direction of Public Registries <a href="http://gestioncsj.gov.py/AnotacionesPersonales/login.seam">http://gestioncsj.gov.py/AnotacionesPersonales/login.seam</a>. The Certificate on Free Disposability of Assets could be issued in 24 hours using the online option.</p>	10 days	PYG 325,008; (2 "jornales" per certificate. 2 certificates are required. The value of each jornal is Gs 81.252.)
⇒ 3	<p><b>Obtain a cadastre certificate</b>  <i>Agency: National Service of Cadastre (Servicio nacional de catastro)</i>                      According to the cadastral law (Law 125/91 "Establishing the New Tax System," Article 64), it is mandatory for the notary to obtain a Certificate of Cadastre (or Zoning Certificate) from the National Service of Cadastre. Each parcel will require one certificate ("cuenta corriente"). The notary fees include the cadastral certificate fees and the certification established in the Resolution of Cadaster SNC 214/2016.</p> <p>Following the resolution SNC N°401 of August 14, 2018, notaries can now request cadastral certificates online accessing the electronic file SNC <a href="https://www.catastro.gov.py/servicio-linea/#/">https://www.catastro.gov.py/servicio-linea/#/</a>. For obtaining the cadastral certificate, the notary must fill the online form and upload the corresponding supporting documents including the Property title, Photocopy of buyer and seller's ID and the non-encumbrance certificate. However, the certificate can be requested online only if the electronic database matches with the required documents and the legal act is loaded in its database. Most of the time the data do not match, or the legal act is not loaded. Therefore, the procedure is often carried out in person.</p>	10 days	PYG 162,504; (2 "jornales". The value of each jornal is Gs 81.252.)

4	<p><b>Preparation and notarization of the transfer deed by a public notary</b>  <i>Agency</i> : Public notary</p> <p>Once all the previous documents have been collected, a notary public prepares and notarizes the transfer deed. As this is a transfer between two tax-registered companies the notary will not retain the 1.5% VAT on the sale.</p> <p>The documentation shall include:  Municipal tax clearance certificate (obtained in Procedure 1)  Non-encumbrance certificate (Obtained in Procedure 2)  Certificate on Free Disposability of Assets (Obtained in Procedure 2)  Cadastre Certificate (obtained in Procedure 3)  Certificate of payment of water and electricity services  Photocopy of buyer and seller's ID  Property title</p>	10 days	<p>PYG 12,262,637.35;  (Notary fees is 0,75% of the property value according to the following schedule, (plus 10% VAT):  Value of property (in Gs) :  Notary fees (% of property value)  - Below 1,000,000: 5 minimum wages (jornales)  - From 1,000,001 to 50,000,000: 2.00%  - From 50,000,000 to 75,000,000: 1.75%  - From 75,000,000 to 100,000,000: 1.50%  - From 100,000,000 to 150,000,000: 1.25%  - From 150,000,000 to 200,000,000: 1.00%  - Above 200,000,000: 0.75%  As of 2006, the seller must also pay 1.5% of property value as VAT (5% VAT rate, applied to 30% of the value of the property= 1.5% of the value of the property) according to art. 7° of resolution 1421/05, regulating art. 91° of law 2421/04.)</p>
5	<p><b>Payment of the Municipal Tax on transfers</b>  <i>Agency</i> : Municipality of Asuncion</p> <p>The Municipal Tax on transfers is paid (usually by the notary) at the Municipality after the contract has been notarized. In Asuncion, the tax is 0.3% of the property value. In other cities of the country it is 0.2%. The amount of the tax will be estimated according to the same principles applied to the Judiciary Fee.</p>	1 day	<p>PYG 4,905,054.94; (0.3% of property price)</p>
6	<p><b>Registration of the notarized documents at the Public Registry</b>  <i>Agency</i> : Public Registry (Direccion General de los Registros Publicos)</p> <p>The notarized deed is recorded at the Directorate General of Public Records. Court fees can be paid online at the authorized banks, payment is no longer performed in the Directorate General of Public Records. The documentation shall include:  - The testimony or copy of the deed issued by a notary public (obtained in procedure 4);  - Municipal tax compliance certificate issued by the Municipality of Asuncion.</p> <p>Payment of fees can be done online through Web Banking at the Judicial Branch's website:  <a href="http://ingresosjudiciales.csj.gov.py/LiquidacionesWeb/home.seam">http://ingresosjudiciales.csj.gov.py/LiquidacionesWeb/home.seam</a></p>	15 days	<p>PYG 12,131,636.32;  (Charges for administrative expenses, 0.4 jornales + 0.74% of property value (registration fee))</p>

⇒ Takes place simultaneously with previous procedure.

## Details - Registering Property in Paraguay - Measure of Quality

	Answer	Score
<b>Quality of the land administration index (0-30)</b>		<b>12.0</b>
<b>Reliability of infrastructure index (0-8)</b>		<b>3.0</b>
Type of land registration system in the economy:	Deed Registration System	
What is the institution in charge of immovable property registration?	Dirección General de los Registros Públicos	
In what format are past and newly issued land records kept at the immovable property registry of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there a comprehensive and functional electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	No	0.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Dirección Nacional de Catastro	
In what format are past and newly issued cadastral plans kept at the mapping agency of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Fully digital	2.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	Yes	1.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Separate databases	0.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	No	0.0
<b>Transparency of information index (0-6)</b>		<b>1.0</b>
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Only intermediaries and interested parties	0.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	No	0.0
Link for online access:		
Is the applicable fee schedule for any type of property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	No	0.0
Link for online access:		
Does the agency in charge of immovable property registration agency formally commit to deliver a legally binding document that proves property ownership within a specific timeframe—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	No	0.0
Number of property transfers in the largest business city in 2018:		
Who is able to consult maps of land plots in the largest business city?	Anyone who pays the official fee	0.5
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	Yes, online	0.5

Link for online access:	<a href="http://www.catastro.gov.py/archivos/costos%20y%20requisitos/costos/RES%20SNC%20N%C2%BA%20214-16-%20POR%20LA%20CUAL%20SE%20DISPONE%20NUEVA%20ESCALA%20ARAN CELES%202016.-.pdf">http://www.catastro.gov.py/archivos/costos%20y%20requisitos/costos/RES%20SNC%20N%C2%BA%20214-16-%20POR%20LA%20CUAL%20SE%20DISPONE%20NUEVA%20ESCALA%20ARAN CELES%202016.-.pdf</a>	
Does the cadastral/mapping agency formally specifies the timeframe to deliver an updated cadastral plan—and if so, how does it communicate the service standard?	No	0.0

Do married men and married women have equal ownership rights to property?

Yes

0.0

## Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Strength of legal rights index (0-12)

- Rights of borrowers and lenders through collateral laws (0-10)
- Protection of secured creditors' rights through bankruptcy laws (0-2)

#### Depth of credit information index (0-8)

- Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)

#### Credit bureau coverage (% of adults)

- Number of individuals and firms listed in largest credit bureau as a percentage of adult population

#### Credit registry coverage (% of adults)

- Number of individuals and firms listed in credit registry as a percentage of adult population

### Case study assumptions

*Doing Business* assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.

In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.

#### Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:

- ABC is a domestic limited liability company (or its legal equivalent).
- ABC has up to 50 employees.
- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Both ABC and BizBank are 100% domestically owned.

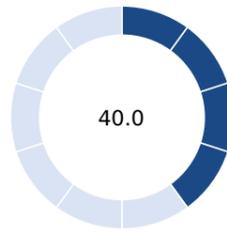

The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).

In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.

Getting Credit - Paraguay

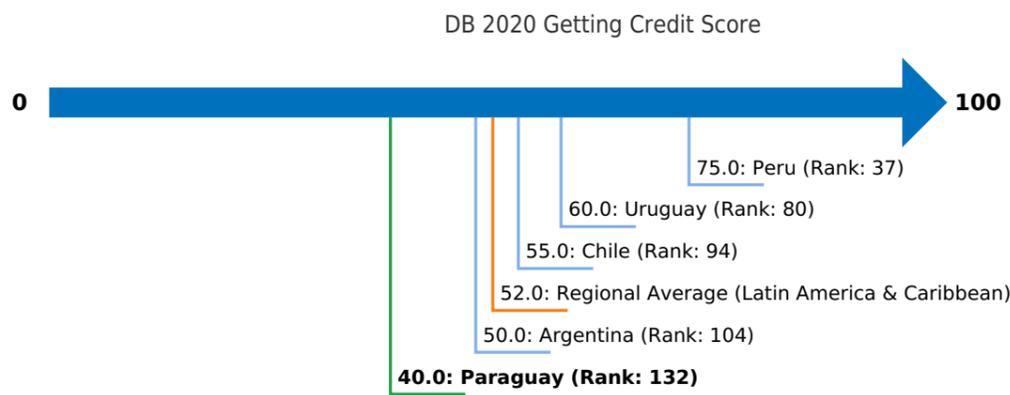

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	1	5.3	6.1	12 (5 Economies)
Depth of credit information index (0-8)	7	5.1	6.8	8 (53 Economies)

Details - Legal Rights in Paraguay

Strength of legal rights index (0-12)

1

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy? No

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral? No

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral? No

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets? No

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered? Yes

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name? No

Does a notice-based collateral registry exist in which all functional equivalents can be registered? No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party? No

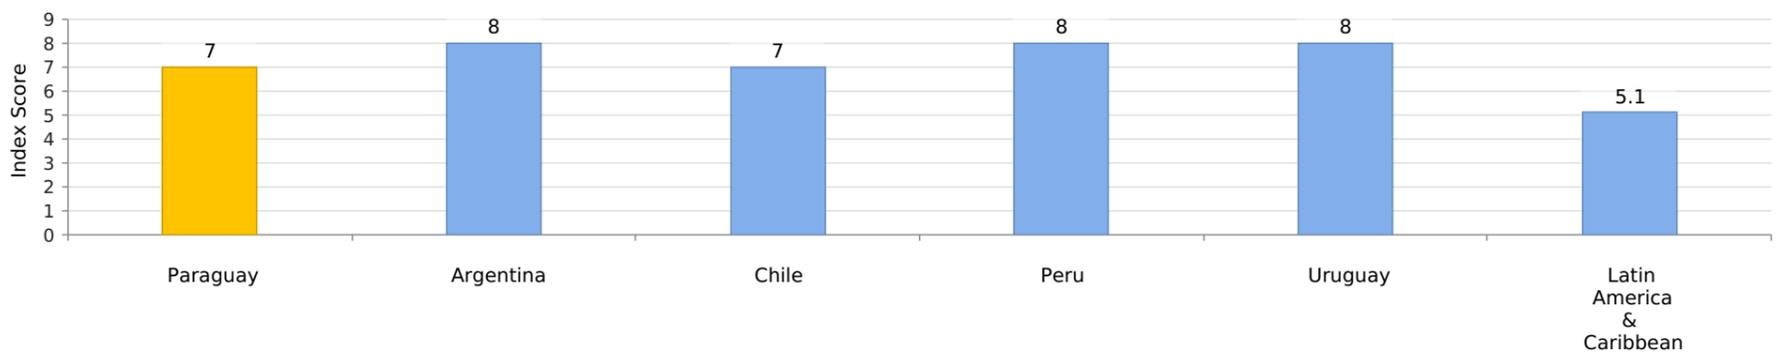

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure? No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated? No

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it? No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt? No

## Details - Credit Information in Paraguay

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	Yes	Yes	1
Are both positive and negative credit data distributed?	Yes	No	1
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	Yes	No	1
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	No	No	0
Are data on loan amounts below 1% of income per capita distributed?	Yes	Yes	1
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	Yes	Yes	1
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	Yes	Yes	1
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	Yes	No	1

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	2,638,224	1,053,694
Number of firms	38,853	13,215
Total	2,677,077	1,066,909
<b>Percentage of adult population</b>	<b>59.9</b>	<b>23.9</b>

## Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

- **Extent of disclosure index (0-10):** Disclosure, review, and approval requirements for related-party transactions
- **Extent of director liability index (0-10):** Ability of minority shareholders to sue and hold interested directors liable for prejudicial related-party transactions; Available legal remedies (damages, disgorgement of profits, disqualification from managerial position(s) for one year or more, rescission of the transaction)
- **Ease of shareholder suits index (0-10):** Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- **Extent of conflict of interest regulation index (0-30):** Sum of the extent of disclosure, extent of director liability and ease of shareholder suits indices
- **Extent of shareholder rights index (0-6):** Shareholders' rights and role in major corporate decisions
- **Extent of ownership and control index (0-7):** Governance safeguards protecting shareholders from undue board control and entrenchment
- **Extent of corporate transparency index (0-7):** Corporate transparency on ownership stakes, compensation, audits and financial prospects
- **Extent of shareholder governance index (0-20):** Sum of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- **Strength of minority investor protection index (0-50):** Sum of the extent of conflict of interest regulation and extent of shareholder governance indices

### Case study assumptions

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

#### The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange.
- Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.
- Has a supervisory board in economies with a two-tier board system on which Mr. James appointed 60% of the shareholder-elected members.
- Has not adopted bylaws or articles of association that go beyond the minimum requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.
- Is a manufacturing company with its own distribution network.

#### The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.
- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.
- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.
- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.
- Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
- The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

	Answer	Score
<b>Extent of conflict of interest regulation index (0-30)</b>		
<b>Extent of disclosure index (0-10)</b>		<b>6.0</b>
Whose decision is sufficient to approve the Buyer-Seller transaction? (0-3)	Board of directors excluding interested members	2.0
Must an external body review the terms of the transaction before it takes place? (0-1)	No	0.0
Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Existence of a conflict without any specifics	1.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction and on the conflict of interest	2.0
Must Buyer immediately disclose the transaction to the public? (0-2)	Disclosure on the transaction only	1.0
<b>Extent of director liability index (0-10)</b>		<b>5.0</b>
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	No	0.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0-2)	Liable if negligent	1.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer? (0-2)	Liable if negligent	1.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	Yes	1.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	No	0.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	Yes	1.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Voidable if negligently concluded	1.0
<b>Ease of shareholder suits index (0-10)</b>		<b>6.0</b>
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	No	0.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Any relevant document	3.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	No	0.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	Yes	2.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	No	0.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes if successful	1.0
<b>Extent of shareholder governance index (0-20)</b>		
<b>Extent of shareholder rights index (0-6)</b>		<b>0.0</b>
Does the sale of 51% of Buyer's assets require shareholder approval?	No	0.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	No	0.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	Yes	1.0
Do shareholders automatically receive preemption rights every time Buyer issues new shares?	No	0.0
Do shareholders elect and dismiss the external auditor?	No	0.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
<b>Extent of ownership and control index (0-7)</b>		<b>0.0</b>
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0

Must the board of directors include independent and nonexecutive board members?	Yes	1.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	No	0.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Must Buyer pay declared dividends within a maximum period set by law?	No	0.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
<b>Extent of corporate transparency index (0-7)</b>		<b>0.0</b>
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	No	0.0
Must Buyer disclose its audit reports to the public?	No	0.0

## Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2019 covering for the Paying Taxes indicator calendar year 2018 (January 1, 2018 - December 31, 2018). [See the methodology for more information.](#)

### What the indicators measure

#### Tax payments for a manufacturing company in 2018 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

#### Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

#### Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

#### Postfiling Index

- Time to comply with VAT refund (hours)
- Time to obtain VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

### Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:

- TaxpayerCo is a medium-size business that started operations on January 1, 2017. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2018). Taxes and mandatory contributions are measured at all levels of government.

#### The VAT refund process:

- In June 2018, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2018.

#### The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

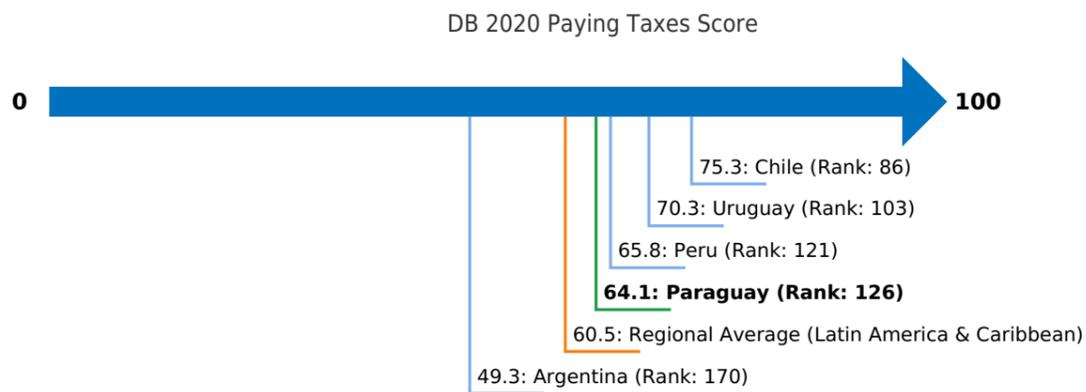

**Paying Taxes - Paraguay**

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Payments (number per year)	19	28.2	10.3	3 (2 Economies)
Time (hours per year)	378	317.1	158.8	49 (3 Economies)
Total tax and contribution rate (% of profit)	35.0	47.0	39.9	26.1 (33 Economies)
Postfiling index (0-100)	46.6	47.5	86.7	None in 2018/19

**Figure - Paying Taxes in Paraguay - Score**

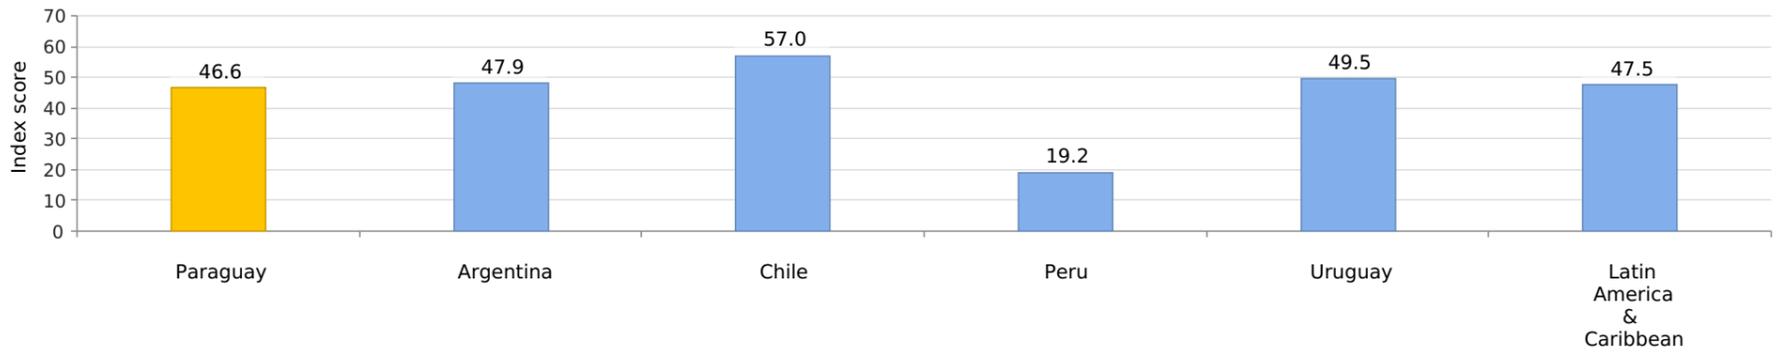

**Figure - Paying Taxes in Paraguay and comparator economies - Ranking and Score**

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

## Details - Paying Taxes in Paraguay - Tax by Type

Taxes by type	Answer
Profit tax (% of profit)	9.6
Labor tax and contributions (% of profit)	18.6
Other taxes (% of profit)	6.7

## Details - Paying Taxes in Paraguay - Measure of Quality

	Answer	Score
<b>Postfiling index (0-100)</b>		<b>46.6</b>
<b>VAT refunds</b>		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	No	
Restrictions on VAT refund process	Restricted to international traders	
Percentage of cases exposed to a VAT audit (%)	Not applicable	
Is there a mandatory carry forward period?	No	
Time to comply with VAT refund (hours)	No VAT refund per case study scenario	0.0
Time to obtain VAT refund (weeks)	No VAT refund per case study scenario	0.0
<b>Corporate income tax audits</b>		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	0% - 24%	
Time to comply with a corporate income tax correction (hours)	9.0	86.2
Time to complete a corporate income tax correction (weeks)	No tax audit per case study scenario	100

**Notes:** Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table. The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

## Trading across Borders

*Doing Business* records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

#### Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

#### Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

### Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

**Time:** Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as  $22 \times 24 = 528$  hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

**Cost:** Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

#### Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Trading across Borders - Paraguay

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance

## Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Time required to enforce a contract through the courts (calendar days)

- Time to file and serve the case
- Time for trial and to obtain the judgment
- Time to enforce the judgment

#### Cost required to enforce a contract through the courts (% of claim value)

- Average attorney fees
- Court costs
- Enforcement costs

#### Quality of judicial processes index (0-18)

- Court structure and proceedings (-1-5)
- Case management (0-6)
- Court automation (0-4)
- Alternative dispute resolution (0-3)

### Case study assumptions

The dispute in the case study involves the breach of a sales contract between two domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.

To make the data on the time and comparable across economies, several assumptions about the case are used:

- The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- The Buyer orders custom-made furniture, then fails to pay alleging that the goods are not of adequate quality.
- The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater.
- The Seller sues the Buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000 whichever is greater.
- The Seller requests the pretrial attachment of the defendant's movable assets to secure the claim.
- The claim is disputed on the merits because of Buyer's allegation that the quality of the goods was not adequate.
- The judge decides in favor of the seller; there is no appeal.
- The Seller enforces the judgment through a public sale of the Buyer's movable assets.

Enforcing Contracts - Paraguay

Standardized Case

## Details - Enforcing Contracts in Paraguay - Measure of Quality

	Answer	Score
<b>Quality of judicial processes index (0-18)</b>		<b>10.5</b>
<b>Court structure and proceedings (-1-5)</b>		<b>3.0</b>
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	No	0.0
2. Small claims court		1.0
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	No	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, automatic	1.0
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
<b>Case management (0-6)</b>		<b>3.5</b>
1. Time standards		0.5
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	Yes	
1.c. Are these time standards respected in more than 50% of cases?	No	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	Yes	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	No	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	Yes	1.0
4. Is a pretrial conference among the case management techniques used before the competent court?	No	0.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	Yes	1.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	Yes	1.0
<b>Court automation (0-4)</b>		<b>1.5</b>
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	No	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	Yes	1.0
4. Publication of judgments		0.5
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	Yes	
<b>Alternative dispute resolution (0-3)</b>		<b>2.5</b>
1. Arbitration		1.5
1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	

2. Mediation/Conciliation	1.0
2.a. Is voluntary mediation or conciliation available?	Yes
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects (for example, definition, aim and scope of application, design)?	Yes
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No

---

## Resolving Insolvency

*Doing Business* studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Time required to recover debt (years)

- Measured in calendar years
- Appeals and requests for extension are included

#### Cost required to recover debt (% of debtor's estate)

- Measured as percentage of estate value
- Court fees
- Fees of insolvency administrators
- Lawyers' fees
- Assessors' and auctioneers' fees
- Other related fees

#### Outcome

- Whether business continues operating as a going concern or business assets are sold piecemeal

#### Recovery rate for creditors

- Measures the cents on the dollar recovered by secured creditors
- Outcome for the business (survival or not) determines the maximum value that can be recovered
- Official costs of the insolvency proceedings are deducted
- Depreciation of furniture is taken into account
- Present value of debt recovered

#### Strength of insolvency framework index (0- 16)

- Sum of the scores of four component indices:
- Commencement of proceedings index (0-3)
- Management of debtor's assets index (0-6)
- Reorganization proceedings index (0-3)
- Creditor participation index (0-4)

### Case study assumptions

To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:

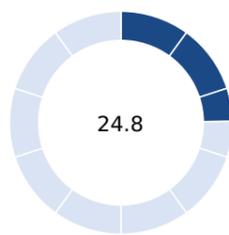

- A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties.
- The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater.
- The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise.

In addition, *Doing Business* evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.

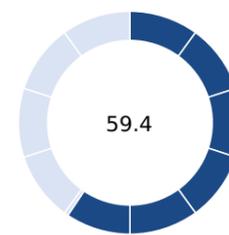

Resolving Insolvency - Paraguay

Indicator	Paraguay	Latin America & Caribbean	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	23.0	31.2	70.2	92.9 (Norway)
Time (years)	3.9	2.9	1.7	0.4 (Ireland)

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Figure - Resolving Insolvency in Paraguay and comparator economies - Recovery Rate

## Details - Resolving Insolvency in Paraguay

Indicator	Answer	Score
Proceeding	foreclosure	BizBank will have 3 alternatives: i) Start a foreclosure proceeding, or ii) request Mirage's insolvency and start a reorganization proceeding, or iii) Mirage or its creditors will request the company's insolvency and start a liquidation proceeding. In practice, the BizBank would start foreclosure proceedings, as reorganization proceedings are rare in Paraguay and banks prefer to enforce its collateral and get paid through foreclosure procedure. Foreclosure proceedings are not normally converted into collective insolvency (liquidation or reorganization) proceedings.
Outcome	piecemeal sale	Having chosen the option of initiating foreclosure proceedings, the hotel will cease operations and the property (assets) will be sold at public auction (assets will be sold piecemeal). Once the order for the auction is issued by the Court, a public auctioneer will be in charge of the management of the debtor's assets. The public auctioneer is in charge of the sale of such assets and distribute the proceeds of sale among the creditors according to the priority set forth by law. BizBank as a secured creditor will have priority with respect to other creditors. There is no possibility for the company to continue operating after the auction takes place.
Time (in years)	3.9	The foreclosure procedure in Paraguay will take approximately 4 years from the moment of the debtor's default until the debt is repaid to the secured creditor. It will take 1.5 years until the approval to initiate foreclosure is handed down by the Court including all required notifications and the debtor's counter-claim. Henceforward, it is important to bear in mind that the debtor will file an appeal which will add at least an additional year until the appeal is decided. After that, it will take an additional year for the auction to take place (including the necessary time to appoint an auctioneer, the scheduling of the auction and the sale of the real estate). It will take around 6 months for the judge to approve the auction, the sale of the estate and the distribution of the remaining among unsecured creditors.
Cost (% of estate)	9.0	The cost for a foreclosure proceeding will amount to approximately 9% of the value of Mirage's estate. The main component of this expenditure would be the attorney's fees, which would amount 7% of the value of Mirage's estate). The rest of the cost (2%) is related to judicial and service fees, and fees related to the public auction.
Recovery rate (cents on the dollar)		23.0

## Details - Resolving Insolvency in Paraguay - Measure of Quality

	Answer	Score
<b>Strength of insolvency framework index (0-16)</b>		<b>9.5</b>
<b>Commencement of proceedings index (0-3)</b>		<b>2.5</b>
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(a) Debtor may file for both liquidation and reorganization	1.0
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework? (a) Debtor is generally unable to pay its debts as they mature (b) The value of debtor's liabilities exceeds the value of its assets	(a) Debtor is generally unable to pay its debts as they mature	1.0
<b>Management of debtor's assets index (0-6)</b>		<b>4.0</b>
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	Yes	1.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	Yes	1.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	No	0.0
Does the insolvency framework assign priority to post-commencement credit?	(c) No priority is assigned to post-commencement creditors	0.0
<b>Reorganization proceedings index (0-3)</b>		<b>1.0</b>
Which creditors vote on the proposed reorganization plan?	(c) Other	1.0
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
<b>Creditor participation index (0-4)</b>		<b>2.0</b>
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	Yes	1.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

**Note:** Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

## Employing Workers

*Doing Business* presents detailed data for the employing workers indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The study does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the maximum probationary period; (iv) minimum wage; (v) ratio of minimum wage to the average value added per worker.

#### Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) length of paid annual leave.

#### Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether the law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

#### Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments, and (iii) penalties due when terminating a redundant worker. Data on the availability of unemployment protection for a worker with one year of employment is also collected.

### Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

#### The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

#### The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

## Employing Workers - Paraguay

## Details - Employing Workers in Paraguay

	Answer
<b>Hiring</b>	
Fixed-term contracts prohibited for permanent tasks?	Yes
Maximum length of a single fixed-term contract (months)	12.0
Maximum length of fixed-term contracts, including renewals (months)	No limit
Minimum wage applicable to the worker assumed in the case study (US\$/month)	366.9
Ratio of minimum wage to value added per worker	0.5
Maximum length of probationary period (months)	1.0
<b>Working hours</b>	
Standard workday	8.0
Maximum number of working days per week	6.0
Premium for night work (% of hourly pay)	30.0
Premium for work on weekly rest day (% of hourly pay)	100.0
Premium for overtime work (% of hourly pay)	50.0
Restrictions on night work?	Yes
Restrictions on weekly holiday?	Yes
Restrictions on overtime work?	No
Paid annual leave for a worker with 1 year of tenure (working days)	12.0
Paid annual leave for a worker with 5 years of tenure (working days)	18.0
Paid annual leave for a worker with 10 years of tenure (working days)	30.0
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	20.0
<b>Redundancy rules</b>	
Dismissal due to redundancy allowed by law?	Yes
Third-party notification if one worker is dismissed?	Yes
Third-party approval if one worker is dismissed?	Yes
Third-party notification if nine workers are dismissed?	Yes
Third-party approval if nine workers are dismissed?	Yes
Retraining or reassignment obligation before redundancy?	No
Priority rules for redundancies?	No
Priority rules for reemployment?	Yes
<b>Redundancy cost</b>	
Notice period for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	7.5
Notice period for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	10.0
Notice period for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	15.0
Notice period for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	10.8
Severance pay for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	2.1
Severance pay for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	10.7

Severance pay for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	42.9
Severance pay for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	18.6
Unemployment protection after one year of employment?	No

## Business Reforms in Paraguay

From May 2, 2018 to May 1, 2019, 115 economies implemented 294 business regulatory reforms across the 10 areas measured by Doing Business. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

---

DB2020

✓ **Enforcing Contracts:** Paraguay made enforcing contracts easier by introducing an electronic case management system for judges and lawyers.

---

DB2019

✓ **Getting Electricity:** Paraguay increased the reliability of power supply by rolling out a Supervisory Control and Data Acquisition (SCADA) automatic energy management system for the monitoring of outages.

✓ **Trading across Borders:** Paraguay reduced the time needed to import by introducing an electronic signature for import customs clearance.

---

DB2018

**Employing Workers:** Paraguay increased the mandatory the length of paid maternity leave

---

DB2017

✗ **Getting Credit:** Paraguay reduced access to credit information by limiting the distribution of historical data on borrowers.

✓ **Trading across Borders:** Paraguay made trading across borders easier by introducing a single window for exporting, which reduced the time required of border and documentary compliance.

---

DB2014

✓ **Paying Taxes:** Paraguay made paying taxes easier for companies by making electronic filing and payment mandatory for corporate income and value added taxes.

---

DB2012

✓ **Dealing with Construction Permits:** Paraguay made dealing with construction permits easier by implementing a risk-based approval system and a single window for obtaining construction permits.

✓ **Getting Credit:** Paraguay improved its credit information system by establishing an online platform for financial institutions to exchange information with the public credit registry.

✗ **Paying Taxes:** Paraguay made paying taxes more burdensome for companies by introducing new tax declarations that must be filed monthly.

---

DB2011

✓ **Dealing with Construction Permits:** Paraguay made dealing with construction permits easier by creating a new administrative structure and a better tracking system in the municipality of Asunción.

---

DB2010

✓ **Trading across Borders:** Paraguay reduced the time required for trading across borders by implementing an electronic single-window system for exports and improving the risk-based inspection system.

---

DB2008

✓ **Starting a Business:** Paraguay reduced the time required for starting a business by creating a one-stop shop and linking multiple agencies to it.

*Doing Business 2020* is the 17th in a series of annual studies investigating the regulations that enhance business activity and those that constrain it. It provides quantitative indicators covering 12 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
