

Labor Market Regulation Questionnaire – «Survey_Economy_FullName»
www.doingbusiness.org

Dear «FirstName» «LastName»,

We would like to thank you for your participation in the *Doing Business* project. Your expertise in the field of labor market regulation in «Survey_Economy_FullName» is essential to the success of the *Doing Business* report, one of the four flagship publications of the World Bank Group that benchmarks business regulations in 189 economies worldwide. The labor market regulation indicator, which measures the regulation of employment, is one of the 11 indicator sets published by the *Doing Business* report.

The report attracts much attention around the world. The latest edition, *Doing Business 2016: Measuring Regulatory Quality and Efficiency*, introduced improvements in 6 of 11 *Doing Business* indicator sets. It received over 7,000 media citations within just 3 weeks of its publication on October 27, 2015 and 31.4 million twitter accounts were reached with *Doing Business* mentions within that same time period. The coverage spanned major global, regional and local media outlets, from print and broadcast to the web. The *Doing Business* website had over 1 million page views and nearly 60,000 downloads within 3 weeks after the report's launch.

Governments worldwide read the report every year, and your contribution makes it possible for the *Doing Business* project to disseminate best practices that continue to inspire regulatory reform efforts. In 2014/15, seven economies made changes to labor laws in areas captured by the Labor Market Regulation indicator.

We are honored to be able to count on your expertise for *Doing Business 2017*. Please do the following in completing the questionnaire:

- Review the assumptions of the case study before updating last year's information in the questionnaire.
- Describe in detail any reform that has affected the areas of labor market regulation since June 1, 2015.
- Update your name and address if necessary, so that we can mail you a complimentary copy of the report.
- Kindly return the questionnaire to dblabor@worldbank.org

We thank you again for your invaluable contribution to the work of the World Bank Group.

Sincerely,

Anna Reva,
Anushavan Hambardzumyan,
Marilyne Youbi,
Yuriy Avramov.

1. CASE STUDY ASSUMPTIONS

The *Doing Business* indicators on labor market regulation measure the flexibility of employment regulation as well as important elements of job quality in light of the following assumptions:

The employee:

- Is a **cashier** who works in a supermarket or grocery store.
- Is a **full-time** employee, with a permanent contract.
- Has the pay period that is most common for workers in «Survey_Economy_FullName».
- Is **not** a member of a labor union, unless membership is mandatory.

The employer:

- Is a limited liability company (or the equivalent in «Survey_Economy_FullName»).
- Operates a supermarket or a grocery store in «Survey_City».
- Has **60 employees**.
- Is subject to collective bargaining agreements if (a) collective bargaining agreements cover more than 50% of the food retail sector **and** (b) such agreements apply even to firms which are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

Definitions: In responding to this questionnaire, please keep in mind the definitions for the following terms (marked with an asterisk in the questionnaire):

- **Fixed-term contract for permanent tasks:** an employment contract that has a specified end date and is used for a task relating to the permanent activity of the firm.
- **Probationary period:** a fixed-length monitoring period allowed by law for new employees to determine whether they have the skills and abilities needed to perform the assignment in their employment contract.
- **Sick leave:** paid or unpaid time off from work that employees take due to personal illness, disability, medical appointment, with advanced approval, and/or, for illness of an employee's parent, spouse, children, sibling, or any other person who is residing in the employee's household.
- **Redundancy termination:** dismissal allowed by law that is justified by economic, operational or structural reasons (not by other causes, such as personal grounds or faulty behavior of the worker). (Also, expressed as "making an employee redundant".)
- **Priority rules for redundancies:** rules on the order of priority for redundancy (*in order to terminate redundant employees, the employer must follow a specific order of seniority, marital status, number of dependents, or other specific priority criteria*).

In responding to the questionnaire, please take into account the case study assumptions as well as the definitions provided above.
